

New Hand dryers

No heating element for a low power consumption

Airspeed Concorde Standard

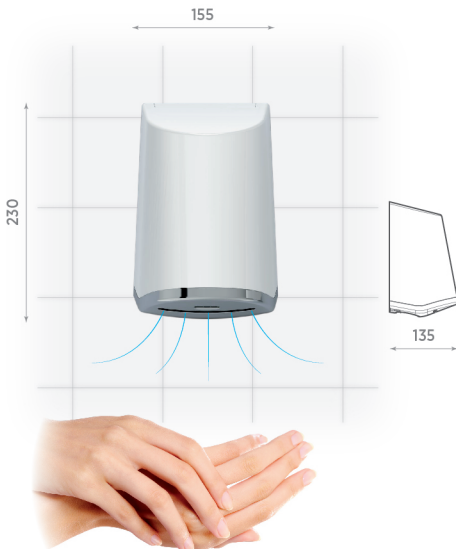

Airspeed Concorde Standard

code	0021200/0021210
activation	infrared sensor
colour	white
voltage	220-240 V
frequency	50/60 Hz
flow rate	165 m ³ /h
air speed	490 km/h
power	1100 W
revolutions per minute	30000 RPM
degree of protection	IPX1
insulation	Class II
weight	2,7 Kg

Airspeed Concorde Mini

Airspeed Concorde Mini

code	0021300/0021310
activation	infrared sensor
colour	white
voltage	220-240 V
frequency	50/60 Hz
flow rate	65 m ³ /h
air speed	320 km/h
power	400 W
revolutions per minute	30000 RPM
degree of protection	IPX1
insulation	Classe II
weight	1,4 Kg

- Revolutionary hand dryers air blade technology, ideal for high traffic facilities.
- No heating element for a low power consumption

Airspeed Sahara

Airspeed Sahara

code	0020360/0020370
activation	a fotocellula
colour	bianco/silver
voltage	220-240 V
frequency	50 Hz
flow rate	350 m³/h
air speed	360 km/h
power	1200 W
revolutions per minute	32000 RPM
degree of protection	IPX4
insulation	Classe I
weight	8 Kg

low power
consumptions

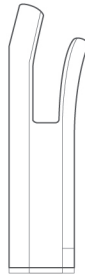

without heating
element

fast
drying time

silent
technology

- Revolutionary hand dryer ideal for high traffic facilities; the air is heated using the power of the motor
- No heating element for a low power consumption
- Fast drying: 15 seconds
- Automatic ON-OFF function
- Equipped with AC motor
- LED light for a correct hands positioning
- ABS structure, available in white or silver colour
